A Nervous Woman

Will often feel compelled to stop the clock whose ticking seems unbearable to her. In such a nervous condition the woman needs a building up of the entire system. It is useless to attempt the cure of the nerves while the cause of the nervousness remains uncured. A very common cause of nervousness in women is a diseased condition of the delicate womanly organism. Dr. Pierce's Favorite Prescription cures womanly diseases and the nervousness which they cause. It changes irregularity to regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nerve, tranquilizing the nerves, promoting the appetite and inducing refreshing sleep.

When I first wrote you I had been to three different doctors and two of them said I would never get better without going to the hospital for an operation, writes Mrs. Selma Erickson, of 406 Rice Street, St. Paul, Minn. "I was not able to do anything. If I would get up and walk to the kitchen and back I would have to lie in bed for a day or sometimes two days. Now I have used six bottles of Dr. Pierce's Favorite Prescription and six of the Golden Medical Discovery, and the result is just wonderful. I was so nervous I had to have some one by my side all the time in day time, and I could hardly eat anything. I took treatment from a doctor twice a week, and every time I would go there I felt so sick, but since I quit all the doctors and began taking your medicines I gained right along. I weighed 125 pounds, when I began taking your medicines (in August) and now I am up to my usual weight (165). I am as well and feel as good as ever."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

CATARRH Nasal Catarrh

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly. COLD IN HEAD Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large size, 50 cents at drugists or by mail; trial size, 10 cents by mail. ELY BROTHERS, 50 Warren Street, New York.

END OF STRIKE IN SIGHT.

The end of the anthracite coal strike is apparently at hand. A plan for the arbitration of differences was submitted to President Roosevelt last evening at the White House by Mr. J. Pierpont Morgan on behalf of the coal operators. It proposes a commission, to be appointed by the President. The arbitration plan has yet to be submitted to the miners, but it is asserted by those informed that the proposition will be promptly accepted by them. President Roosevelt will appoint the commission forthwith. There is every prospect that work in the collieries throughout the anthracite region will be immediately resumed.

Following the conference at the White House, lasting from 10:15 o'clock till 11:40, this official statement was made public: Mr. J. Pierpont Morgan came to Washington with his partner, Mr. Bacon, at the request of the coal companies, who desired that, as a matter of courtesy, their statement should be shown to the President before it was made public. Having been laid before the President by Mr. Morgan, it is now given to the press.

TO THE PUBLIC. The managers of the different coal properties comprising the anthracite coal fields, wish their position in the present strike to be understood, and therefore make the following statement of facts:

There are in the anthracite regions about seventy-five operating companies and firms, and 147,000 miners and workmen (of which 30,000 are under age), comprising some twenty nationalities and dialects.

Of these workmen possibly one-half belong to the United Mine Workers' Union, of which Mr. John Mitchell is president. That organization was originally formed in the bituminous coal region, and three-fourths of its members are miners of bituminous coal, and bituminous coal is sold in active competition with anthracite coal. The remaining workmen in the anthracite fields either belong to no union whatever, or do not belong to the Mine Workers' Union.

The present strike was declared by the Mine Workers' Union on the 10th day of May, 1902. Since that time many workmen not belonging to, or not willing to follow that organization, were working in and about the mines. From 17,000 to 20,000 are now at work. Many more have wished to work, but have been prevented by a course of violence and intimidation toward those working, and toward their families, accompanied by the destruction of properties and the fear of death or bodily harm to every man who wishes to exercise his right to work.

A schedule is annexed hereto showing some of the things done to create this reign of terror, and every instance stated can be verified by reference to the officers of the law—civil and military—in the anthracite region. This violence has continued and steadily increased, notwithstanding repeated disavowals by Mr. Mitchell, and it is clear that he either cannot or will not prevent it, and that the rights of the other workmen cannot be protected under the supremacy of the mine workers' union.

The coal companies believe that the wages paid in the coal regions are fair and full, and all that the business in its normal condition has been able to stand if the capital invested is to have any reasonable return. The profits have been small, several of the companies have become bankrupt and have been reorganized several times. Several have never paid dividends, and the dividends of the others have been a small return for the capital invested. It is not, however, the purpose of this statement to discuss this question. The undersigned are not, and never have been, unwilling to submit all questions between them and their workmen to any fair tribunal for decision. They are not willing to enter into arbitration with the mine workers' union, an organization chiefly composed of men in a rival and competitive interest, and they are not willing to make any arrangement which will not secure to the men now working, and all now or hereafter wishing to work, whether they belong to the mine workers' union or not, the right and opportunity to work in safety and without personal insult or bodily harm to themselves or their families. For these reasons the arbitrations heretofore proposed have been declined.

It will be remembered that at the conference in Washington October 3 we made the following offer: That we would take up at each colliery any alleged grievance, and in the event of a failure to make a satisfactory adjustment, the questions at issue to be submitted to the final decision of the judges of the Court of Common Pleas of the district in which the colliery is located. The offer was made by us in good faith, and we desire here to reaffirm it.

The coal companies realize that the urgent public need of coal and the apprehension of an inadequate supply for the approaching winter call for an earnest effort to reach a practical conclusion, which will result in an increased supply, and the presidents of the companies desire to make every effort to that end which does not involve the abandonment of the interests committed to their care and of the men who are working and seeking to work in their mines. This responsibility they must bear and meet as best they can.

They therefore restate their position: That they are not discriminating against the United Mine Workers, but they insist that the miners' union shall not discriminate against or refuse to work with non-union men; that there shall be no restriction or deterioration in quantity or quality of work, and that owing to the varying physical conditions of the anthracite mines each colliery is a problem by itself.

We suggest a commission be appointed by the President of the United States (if he is willing to perform that public service), to whom shall be referred all questions at issue between the respective companies and their own employees, whether they belong to a union or not, and the decision of that commission shall be accepted by us.

The commission to be constituted as follows: 1. An officer of the Engineer Corps of either the military or naval service of the United States. 2. An expert mining engineer experienced in the mining of coal and other minerals and not in any way connected with coal mining properties, either anthracite or bituminous. 3. One of the judges of the United States Courts of the Eastern district of Pennsylvania. 4. A man of prominence, eminent as a sociologist. 5. A man who, by active participation in mining and selling coal, is familiar with the physical and commercial features of the business.

It being the understanding that immediately upon the constitution of such commission, in order that idleness and non-production may cease instantly, the miners will return to work and cease all interference with or persecution of any non-union men who are working or shall hereafter work. The findings of this commission shall fix the date when the same shall be effective, and shall govern the conditions of employment between the respective companies and their own employees for a term of at least three years.

Old People Have Their Troubles. Mr. Francis Little of Benton Harbor, Mich., is over eighty years of age. Since 1865 he has been troubled more or less with indigestion and constipation and has tried almost everything in use for those ailments. Last August he began using Chamberlain's Stomach and Liver Tablets and was soon feeling much better. In a recent letter he says, "I have used three boxes of the Tablets and now think I am well." These Tablets improve the appetite and invigorate the stomach, liver and bowels. For sale by Richard Gibson, druggist.

McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." MEDICINAL

FREE! :: FREE!

To Kidney Sufferers. An Opportunity Worthy of Your Notice.

If you suffer with kidney disease or any ailment arising from an improper action of the kidneys or urinary organs, this offer we make to the people of Alexandria should interest you. In the advancement of medical science, the kidneys, the organs of the greatest importance to human health, have not been neglected, and in placing before you such a cure as Doan's Kidney Pills the proprietors recognize how far so many statements of the makers of similar preparations have fallen short of their claims, being convinced that no remedy for kidney complaint in existence equals Doan's Kidney Pills for such ailments; strengthened in these convictions by letters that are daily received of the work they are doing for mankind's benefit, old backs and young backs are being constantly freed from never-ceasing aches, and many a lame and shattered one, stooped and contracted, is strengthened, invigorated and infused with new life. With such a medicine an offer of this kind can be made without hesitancy, for while we lose the box we give to you, we make a friend that assists us in the sale of many others.

FULL BOXES

of Doan's Kidney Pills will be given away free to every person suffering with kidney ailments at the undersigned address. First come, first served, and only this one chance offered. Remember this is not a sample box, but a regular size box of Doan's Kidney Pills, which retails at 50 cents.
